## VICTIM ADVOCACY SERVICES

If you or someone you know are a survivor of domestic abuse or sexual assault and you don't know what to do, you have found us. We are your advocates.

All areas of life are affected when someone is assaulted and we are here to help you figure out what services are available and what services YOU want to be a part of. Some of the things a victim advocate can help with are:

- Informing you of your reporting options. You have choices.
- Guiding you to available support services including confidential counseling and support groups.
- Linking you to programs to assist with emergency shelter, medical services and legal assistance.
- Developing a safety plan for you and your family.
- Attending appointments.

You are not alone. Please call us so we can answer your questions and explain exactly how we can help you.
